So much so that her Dad made her a special backpack that she can transform to look like any dinosaur she wants. Fortunately for Dana, after a chance encounter with Trek and his Dino Field Guide, Dana can now see dinosaurs too! What's more, when Dana transforms her backpack, the dinosaurs think she's one of them – allowing her to get closer to the action than any of her predecessors. With new prehistoric creatures, including for the first time mammals and insects, Dino Dana continues the Emmy award winning tradition of imagining the awesomeness of the past into an adventure in the present.
